E MOYRAND - CEO

The founders

Emmanuel MOYRAND

After completing a master's degree in law and graduating from the Ecole du Louvre, Emmanuel worked for Christies in London, as well as for large auction houses in Paris. In 2006, he joined Seri-Expert to develop expertise of jewelery and art works, and has focused on theft and art objects RC (graduated from ING and certified by insurance companies). At the same time, he gave courses in art insurance schools and became chairman of the FG2A Art and Affinity Commission. He has created many structures dedicated to the fine arts in the insurance environment, including Elex Premium. In 2017, he created Monuma, developing blockchain tools to put an expert in your pocket.

Gilles VIVIER

After completing Westminster College in Oxford, and obtaining the Ecole Boule School Certificate, Gilles earned a Master of Advanced Study in Sociology of the Law. An experienced auctioneer, he holds a degree of the National Institute of Gemology, and in History of art and intervenes in the courts as an expert. He participated in defining the Theft Certification with the insurers and the Compagnie des Experts en Assurance. He also teaches at the Faculty of Law of Montpellier and is a lecturer in the Department of Art History at the Université Toulouse Jean-Jaurès.

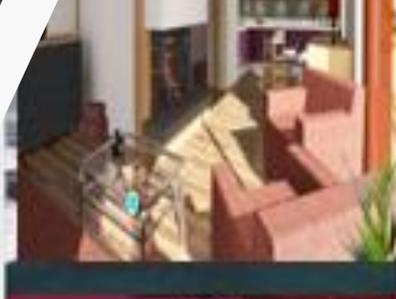

DIGITAL SOLUTIONS

by

monuma

Monuma offers a range of digital solutions to safely record and share information about goods and properties

They can be used with :

- a mobile phone
- a tablet
- a computer

Information like the location, date and hour are embedded in the photos and totally tamperproof thanks to the blockchain technology.

In the case of a loss, evidence of possession and condition can be immediately supplied to insurers and partner, thus allowing a swift compensation.

ART AND LUXURY

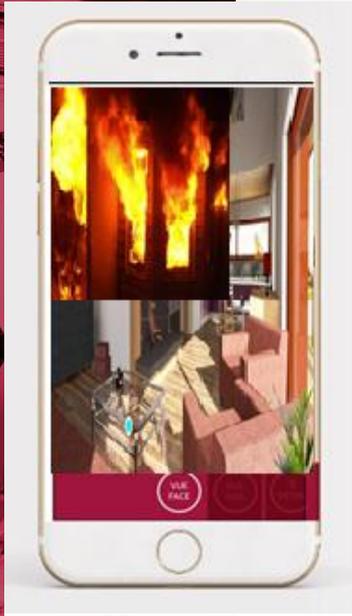

Art work and luxury items need appraisal by specialists and evidence of their high cost.

With the SAPHIR solution, a certificate of value and condition is automatically generated during acquisition and integrated in the affinity insurance contract.

The digital certificate is safely stored and the value can be updated every year by a **Monuma** expert.

After a disaster, it will be attached to the notification of loss as an evidence.
